Global Technology Summit 2022

Carnegie India (CI), in collaboration with, the Ministry of External Affairs, Government of India is organizing the **7th Global Technology Summit** during 29 November – 01 December, 2022.

2. The Global Technology Summit brings together ministers, senior government officials, expert practitioners, industry leaders, public policy professionals, entrepreneurs, academics, and civil society representatives from India and abroad to discuss issues around technology and policy.

3. The theme for this year's Summit will be **Geopolitics of Technology**. GTS 2022 will be organized in a hybrid format in New Delhi.

4. The public sessions, spread over three days, will focus on three specific sub-themes, and will be organized as a combination of high-impact ministerial addresses (from India and abroad), panels, keynote addresses, and conversations.

Day 1 will focus on the theme **India's Digital Way: The Road to G20** which will focus on conversations around digital identities, the use of digital infrastructure to improve access to healthcare, cross-border payment systems, partnerships to create digital public goods (DPGs) that can promote inclusive growth, and discussions around shaping India's G20 agenda.

Day 2 will focus on the theme **Navigating Partnerships and Alliances for the Future** which will feature discussions that highlight possible partnerships and collaborations with respect to semiconductors, contours of building an EU-India trade and technology council, commercialization of space, artificial intelligence, a robust and sustainable research ecosystem, and sustainable technologies.

Day 3 will focus on the theme **An Avoidable Fragmentation** which will host discussions around the changing nature of geopolitics, cross-border flow of data, the future of military technologies, biosafety architecture, and financial inclusion.

6. In addition to public sessions, GTS 2022 will organize closed-door discussions which offer an opportunity for stakeholders (Government, Industry, Academia) to discuss and debate key tech-policy issues and concerns at the national, regional, and global level. Some of the proposed topics for the closed-door discussion are Track 2

Dialogue between countries on building resilient semiconductor supply chain, cross-border payment systems, standard setting for biosafety and biosecurity, digital infrastructure for global development, among others. **For more information please visit Conference website - <https://globaltechnologysummit.com/>**

The banner features a dark blue background with a light blue circuit board pattern. At the top left, the Carnegie India logo is displayed. To its right is the Government of India emblem and the text 'Ministry of External Affairs Government of India'. A large light blue rectangle on the left contains the year '2022' in circles, followed by 'GLOBAL TECHNOLOGY SUMMIT' and '29th NOV - 1st DEC'. The main title 'Geopolitics of Technology' is written in large, bold, light blue and white letters. At the bottom right, it says 'REGISTER AT www.GTS2022.com'.
