MEA Performance Smart Board

Ministry of External Affairs (MEA) Performance SmartBoard was launched on the 14th of August, 2019 by the Hon'ble Minister of External Affairs Dr. S Jaishankar, an initiative of the government aimed at putting various performance indicators of the Ministry at the disposal of the people.

The Performance SmartBoard will monitor Ministry's performance in 20 key indicators in citizen services, trade and commerce, international engagement, diaspora engagement and development partnerships. By using the Dashboard, a user can view the data on citizen-centric services like Visas, Pilgrims, and OCI Cards, amongst others, along with data on Trade and Commerce across all 191 Missions and Posts of MEA around the globe with a "single click." Information on Iconic Projects undertaken by MEA in various countries and the Grants and Loans extended as Development Assistance to countries abroad is also readily visible.

The MEA Performance SmartBoard is available on <https://meadashboard.gov.in>
